

Battery ash vacuum cleaner AV P-15 18V

Order No. 110011

Equipment

- Ideal for **vacuuming ash** when cleaning stoves and fireplaces
- Robust filling container made of **coated steel**
- **Convenient push buttons** - operation by tapping shortly on the relevant button - also operable with the foot.
- **Stowage of all accessories** on the vacuum cleaner
- **PressClean** - manual filter cleaning system
- **Low dust disposal** via PP disposal bag
- **Pleasant noise level** during operation
- **Aluminium reinforced** hose
- **Maximum utilization of the filling volume** through suction hose connection on the head and use of a flat pleated filter
- **Long-life filter system** by additional use of a pre-filter
- 100% compatible with the **largest cross-manufacturer battery pack system CAS** (Cordless Alliance System)
- **Maximum mobility** through wireless power supply

Technical Data

Voltage	18 V
Running time with 1 x 18V 10.0 Ah	Approx. 40 min
1 x 18V 5.2 Ah	Approx. 21 min
1 x 18V 2.0 Ah	Approx. 8 min
Power consumption	Max. 350 W
Vacuum	Max. 120 mbar
Filter surface	3000 cm ²
Container capacity	Max. 15 l
Dimensions L x W x H	(31,2 x 35 x 385) cm
Hose length	1,3 m
Weight without Bat./Accs.	2,8 kg
Operating range	∞

Scope of Supply

- 1x Aluminium crevice nozzle
- 1x Suction hose aluminium reinforced 1,3m
- 1x PP disposal bag (FBPP 15 - 5 pcs, WS Order No. 462073)
- 1x Flat pleated filter cellulose (FF 3000, WS Order No. 459608)
- 1x Pre-filter (FSP 630, WS Order No. 462080)

(no battery and charger included in delivery)
